Did you know that Mother's Day dates to ancient times? Then in 1914 the US Congress declared the second Sunday in May as national Mother's Day, which was adopted by most other countries too. In Czechoslovakia, Mother's Day celebrations began in 1923 mainly thanks to Alica Masaryk, daughter of former President T. G. Masaryk.

This year, Mother's Day falls on 10 May, but Poland (26 May), Hungary and Romania (3 May), and France (7 June) choose different dates.
